

News from Grant's ... all of it good

Dear paid-up subscriber:

With our brand new Web site, the *Grant's* online experience has just been made a whole lot better: better with new ways to keep track of your favorite issues and articles, better with a search function that really works and better with simpler online account management, to name just a few improvements.

In order to enjoy all the features of our new Web site and to download future and past issues of Grant's, every subscriber must register on the new site*.

It will only take a minute. Just follow the steps outlined below. Questions? Call us at 212.809.7994.

1. In your Web browser, type in www.grantspub.NET. Click on the login button located on the top right of our home page just below the 25th Anniversary logo.
2. Type in your subscriber ID number below the "Existing Subscriber Registration" box. Your subscriber ID number is located directly above your name on every issue envelope. If you do not know your subscriber ID number, call us for it. Type in your zip code or postal code and click continue.
3. On the next screen your name will appear and you will be prompted to enter your email address and a new password (this can, but does not have to, match your old registration). Now click "register." You are ready to use the new site.

Welcome to the new digital *Grant's*!

Sincerely,

Grant's

*** Subscribers who have NOT previously downloaded issues, must also install the FILE OPEN SYSTEM plug in security feature, found in the bottom right hand corner of Grantspub.net homepage or at <http://plugin.fileopen.com>.**
