Odd fact out

In the following Mexican-news quiz, which fact doesn't quite seem to fit?

· February crude-oil production falls by 5.9% to 1.895 million barrels a day versus 2.016 million in February 2017, Petroleos Mexicanos (Pemex) reports.

· Daily gasoline production plunges by 42% in the first two months of the year, to 176,000 barrels, lowest since 1973, according to *Forbes México*.

· Imports account for 80% of Pemex gasoline sales in the year to date, up from 48% in 2014.

· Presidential front-runner AMLO calls for billions in new refinery investment; \$18 billion for two refineries would lift Pemex debt to \$185 billion, and a projected ratio of debt to EBITDA of 9:1.

· The Pemex 47/ss of 2024 change hands at 101, a price to yield 4.6%, unchanged from two weeks ago ([Grant's, March 23](#)).
